Dear Mr. and Mrs. Quinlan:

Environmental Health conducted an inspection of the Onsite Sewage Treatment and Disposal System (OSTDS) at the above referenced location on March 14, 2007. The condition(s) stated below outline the department's assessment of the OSTDS:

**Status of Property:**

The premise has been occupied and no overflows were observed at the time of the inspection.

**Septic Tank Compartment:**

The condition of the internal structure of the tank compartment could not be determined because the tank was not opened for a visual inspection. However, a limited external inspection of the tank was conducted.

- No structural deficiencies were noted.

**Drainfield System:**

The drainfield system was probed and the soil adjacent to the drainfield was augured to assess the system's functionality.

- The drainfield was found to be constructed of cradle drain and gravel material, which indicates that the system may be at least 25 years old
- No structural deficiencies were noted.

**Conclusion:**

- No action is required at this time. This letter does not imply that the system will perform optimally for a specific period of time. However, with the data available at the time of the inspection, the system was operating properly.

This inspection will be honored for a period of nine months. If we can be of further assistance, please do not hesitate to call us at (850) 595-6786.

Sincerely,
