Dear Ms. Eubanks:

Environmental Health conducted an inspection of the Onsite Sewage Treatment and Disposal System (OSTDS) at the above referenced location. The condition(s) stated below outline the department's assessment of the OSTDS:

At the time of the inspection, the OSTDS appeared to be operating properly with no overflows. Although no overflows were observed, the condition of the internal structure of the tank compartment could not be determined because the tank was not uncovered nor opened for a visual inspection. However, the drainfield system was probed and the soil adjacent to the drainfield was augured to assess the system's functionality. The premise has been occupied for a considerable time and the OSTDS is of adequate size.

Our inspection revealed that the OSTDS tank compartment was constructed of brick. Effluent leaks were observed through the walls of the tank compartment. We recommend a private, licensed septic tank company inspect the tank compartment to ensure structural integrity. The inspection must be conducted at the property owner's expense. A copy of the certification should be mailed or faxed (595-6710) to Environmental Health.

If we can be of further assistance, please do not hesitate to call us at (850) 595-6786.

Sincerely,

Ellen J. O'Neill
