Dear Mr. McFadden:

Environmental Health conducted an inspection of the Onsite Sewage Treatment and Disposal System (OSTDS) at the above referenced location. The condition(s) stated below outline the department's assessment of the OSTDS:

The premise was vacant at the time of our inspection and no overflows were observed. The condition of the internal structure of the tank compartment could not be determined because the tank was not opened for a visual inspection.

The drainfield system was probed and the soil adjacent to the drainfield was augured to assess the system's functionality. Because there were no occupants living in the residence, no sewage flow was being generated; therefore, our ability to fully assess the functionality of the system was limited. However, with the data available to us at the time of the inspection, the system appeared to be in satisfactory condition.

This letter will be honored for a period of six months. If we can be of further assistance, please do not hesitate to call us at (850) 595-6786.

Sincerely,

Mary M. Beverly, REHS
