Dear Mr. Bass:

Environmental Health conducted an inspection of the Onsite Sewage Treatment and Disposal System (OSTDS) at the above referenced location on February 1, 2005. The condition(s) stated below outline the department's assessment of the OSTDS:

**Status of Property:**

The premise has been occupied and no overflows were observed at the time of the inspection.

**Septic Tank Compartment:**

The condition of the internal structure of the tank compartment could not be determined because the tank was not opened for a visual inspection. However, a limited external inspection of the tank was conducted.

- No structural deficiencies were noted.

**Drainfield System:**

The drainfield system was probed and the soil adjacent to the drainfield was augured to assess the system's functionality.

- Moderate root intrusion was found in the tank and drainfield areas that could alter the system's functionality in the future. This item is for information only.

**Conclusion:**

- No action is required. The system appeared to be operating properly at the time of our inspection.

This letter will be honored for a period of nine months. If we can be of further assistance, please do not hesitate to call us at (850) 595-6786.
